ACCESS TO PATIENTS

Since 1995 Community Research has conducted 500+ trials at our three Phase 2 - 4 sites. In the process we have amassed a database of over 40,000 patients.

We have pre-screened patients in a variety of therapeutic areas, including:

- **CNS:** Depression, GAD, Bipolar Disorder, Alzheimer's Disease, Migraine
- **Sleep:** Insomnia, Sleep Apnea, Restless Legs, Narcolepsy, Shift-Work Sleep Disorder, Jet Lag, and Normal Sleepers
- **General Medical:** Hypertension, Hyperlipidemia, Diabetes, COPD, Arthritis, Women's Health

Clinical trials for every phase of life.
